

Video clips provide a visual look at nursing procedures, assessments, and so much more, building a greater understanding of critical material and elevating education to a new level. Medcom's collection of more than 1800 video clips from hundreds of video programs provides you with a valuable education resource. Each clip improves learning by demonstrating a single skill or concept.

- Assign video clips to your students and staff
- Access clips easily and instantly
- Search for clips by keyword, category, or program title alphabetically
- Clips are mobile device compatible

Get access to more than 1800 video clips from programs in the following categories:
